

The Quality Sunday School Standard

Use this standard in meetings with leaders to check your progress toward quality. On a scale of 0-10 with 10 as *excellent*, evaluate how well your Sunday School is doing in each area. Place your evaluation on the line to the right. If you score 240 points out of the 320 points total and have at least 50 percent in each of the seven categories, your Sunday School can be recognized as a Quality Sunday School.

If you choose, you might use the suggestions in this standard as you set goals for a new year in Sunday School. You could check suggestions you want to accomplish and then periodically evaluate how well you are doing in meeting these goals. Additional information related to the categories and suggestions may be found in *Toward 2000: Leading the Sunday School*. To request a Quality Sunday School Standard Recognition Certificate affirming the commitment to quality made by your church and its Sunday School leadership team, you may contact the state Sunday School director for your state convention. Report your achievement on the Quality Standard and he will send the Certificate to your church.
