Church Planting Update:
Church of the Beloved, Centreville, VA

“We are in the midst of learning how to pray together as a young church. As a church plant that is not even a year old, we are coming back to the basics of learning to pray together: for each other, for our neighbors, and for the community. Our hope is to become a church that is grounded and rooted in prayer, because we believe that is when we will see God move the most, including drawing people to himself through our church. Would you pray that our church would become a house of prayer?”

Did You Know?
The BGAV is fueling a church-planting movement in Virginia and beyond. Out of hundreds of eligible and trained church planters, we have the opportunity to fund a large percentage of these church plants with your financial support. Want to help spread the gospel? We are seeking to raise $750,000 in order to (a) increase the total number of BGAV churches to 1,500 by 2020 and (b) plant a BGAV church in every state by 2025. Visit BGAV.org/Donate or give to the Alma Hunt Offering for Virginia Missions (AlmaHunt.org) to help with BGAV church-planting efforts.
Church Planting Update: The Grove Church, Fayetteville, NC

“We are a six-month-old church plant located in the military city of Fayetteville, NC. From the start, our mission has been to reach the 250,000 dechurched and unchurched people in our city. We have found that the best strategy to reach that demographic is through normal, everyday friendships and relationships. Most recently, we have focused on deepening and building those relationships through block parties and food. Through this intentional community, God has already softened the hearts of five families to join us for a weekly Bible study. Please continue to pray that God would use us to make his name famous in our city.”
