Virginia Baptist Disaster Response: Pray, Give, and Go!

In September, Virginia Baptist Disaster Response (DR) volunteers headed to North Carolina in the wake of Hurricane Florence. Their first mission was to provide meals for people who had lost everything. Over several days, DR feeding volunteers made over 36,000 meals. Recovery volunteers soon followed and helped clean out over 100 homes.

Teams are still working to clean homes in North Carolina in Beaufort County and Jones County. Several other teams worked in Virginia in Martinsville and Henry County following the flooding that happened there. More volunteers are needed to respond following Hurricane Florence. No prior training is needed - please visit BGAVDR.org to learn more about how you can volunteer.

Following the more recent devastating effects of Hurricane Michael, trained DR volunteers are serving meals in Albany, GA, to the residents in the area.

Your prayers, donations, and service make a real impact in the lives of disaster victims. Please consider how you can pray, give, and go and then visit BGAVDR.org to learn more.
